<b>Description</b>			
There is a minor discrepancy between the labelling and text for variable hhch12 in each of the indresp files. An example is shown in the link below <a href="https://www.iser.essex.ac.uk/bhps/documentation/volb/wave9/iindresp15.html#IHHCH12">https://www.iser.essex.ac.uk/bhps/documentation/volb/wave9/iindresp15.html#IHHCH12</a>  you will see the label is child/ren under 12 in household. The question text reads "is/are there child/ren aged 12 or under living in the household".  The former excludes 12 years, the latter does not.
