Description			
Hello,			
Can you please tell me what information is collected with regards to benefit payments. Is this a simple yes/no response or are participants asked which benefits they are on? Additionally, can this be tracked over time for individual participants (e.g. if they were on benefits and now they are no longer receiving benefits).			
Kind regards,			
Megan

Dear Megan,

Mnany thanks for your enquiry.

There are different methods of finding variables available in the data. First, you can search for variables using keywords using our online documentation (<https://www.understandingsociety.ac.uk/documentation/mainstage/dataset-documentation>). Second, you can also search through the questionnaires available online (<https://www.understandingsociety.ac.uk/documentation/mainstage/questionnaires>). For an overview of topic modules and the frequency with which they appear look at the Long Term Content Plan (<https://www.understandingsociety.ac.uk/documentation/mainstage/long-term-content-plan>).

Please do let me know whether this has answered your query or whether you require any further help.

Best wishes,

Victoria
