Description			
Hello,			
I would like to access the data for C-reactive protein as I wish to look at its association with job characteristics. Can you let me know if this is available or if not how I access this.			
Thanks,			
Gemma

Dear Gemma,

The C-Reactive protein data can be found in the nurse health assessment data (collected at waves 2 and 3):

<https://www.understandingsociety.ac.uk/documentation/health-assessment>
<https://discover.ukdataservice.ac.uk/catalogue/?sn=7251&type=Data%20catalogue>

Hope this helps,
Best wishes, Victoria.

Just to add:

If you go to the Understanding Society website and use the search function, you can get to any variables with a plausible name as well as the entire modules on work characteristics.

E.g., results of searching for 'work conditions' within modules:

https://www.understandingsociety.ac.uk/search?q=work+conditions&t=mainstage_module
