Description			
<p>Hello. I have downloaded the Wave 1 youth dataset and have 4,899 individuals. This total does not marry up with the figures I received for Youth responses at a recent RSS USoc event, so I just wondered exactly who were included in the W1 Youth module e.g. does it include the innovation panel? the EM boost? etc. Many thanks for any help that can be provided.</p>

- Target version set to M1

Alicia,
The Mainstage Wave 1 Youth file (N=4,899) contains the questionnaire responses from 11-15 year olds in responding household including Ethnic Minority Boost household members (see a_emboost variable). The Innovation Panel is a separate sample and the data are released separately.

Hope this explains all - if not, let me know.
Jakob
