<b>Description</b> Hi,  I want to use four digit ISCO 88 codes in Understanding Society for current job and last job. Although these variables (both 3 digit and 4 digit versions) appear in the data documentation, only condensed (3-digit) versions are available in the data. I wanted to ask whether 4 digit versions are available for Understanding Society?  P.S. I see that the 4 digit versions are publicly available in the BHPS data.  Many thanks!

- % Done changed from 0 to 90

Hi Sait  
the four digit version of ISCO88 is only available in the Special Licence version of the data. The data can be downloaded from the UKDS, see <https://discover.ukdataservice.ac.uk/catalogue/?sn=6931>, there is, however, a requirement to apply for access, i.e., you need to justify why you need access to the more detailed information/ why the less detailed version is not suitable. You'll find all necessary information about the application process following the link included above.

Hope this helps.  
Gundi
