Description			
Hello,			
The questionnaire (p.8) tells me that the following variable: "LVWHY. Leavers - Why Left" should be available but it is not included in the data set. Has it been renamed or will it become available later? I can only find why the partner left the household: b_lvwhyp.			
Thank you very much for your answer in advance

Antje,
Thanks for bringing this to our attention. The variable corresponding to lvwhy (pdf questionnaire, p.8) is lvwhyp on b_indresp. We will rename it so that it matches the questionnaire at the next re-release.
NB the value label for 1 should be "deceased".
