Hello Hong,

All responses from adult respondents including proxy and self-completion are included in the INDRESP files.

For more information on the survey including data structure please see the user guide

<https://www.understandingsociety.ac.uk/d/308/mainstage-waves-1-6-user-guide.pdf?1479807450>

In person lab-based as well as online training workshops on using the data are also available. For more information see

<https://www.understandingsociety.ac.uk/documentation/training>

Best wishes,

Alita

Thanks Alita. I have checked all the indresp files but variables SCWEMWBA to SCWEMWBG (variable names obtained from questionnaire) are missing from them.

Dear Hong,

These variables are available in a\_indresp and d\_indresp files as these were asked in Waves 1 and 4. Please note Stata is case sensitive and all variables will have a w\_ prefix. You can find the variables

a\_scwemwba a\_scwemwbb a\_scwemwbc a\_scwemwbd a\_scwemwbe a\_scwemwbf a\_scwemwbg IN a\_indresp  
d\_scwemwba d\_scwemwbb d\_scwemwbc d\_scwemwbd d\_scwemwbe d\_scwemwbf d\_scwemwbg IN d\_indresp

Best wishes,

Alita
