Description

Browsing your website, the matdep items a-c in wave 1 are shown as 'special licence version' only, but I don't think any other similar items (matdepd etc. or cdepxx) are restricted in that year, nor are the same items marked as restricted in later years. Is this just an error on the documentation? If not, what is the reason for restricting these items? Thanks

Hi Nick,

yes, that seems to be a glitsh in the online dataset documentation. The variables are definitely included in the standard end user licence data that we have deposited. We will look into fixing this. Thanks for making us aware of this.
Best wishes,
Gundi
