Description			
Hi			
I am carry out a study using Understanding Society for the Young Foundation and have ESDS permission. I wish to used the variable a_schsta - Is NAME's school a state school or is it a private, fee paying school?			
which is listed in online documentation http://data.understandingsociety.org.uk/documentation/mainstage/dataset-documentation in dataset a_child which is not provided in wave 1 or 2 and is not listed in the data documentation pdfs that come with the download.			
Is this dataset and item available?

This is part of the Parents and children module asked every other wave from wave 1 onwards (<https://www.understandingsociety.ac.uk/documentation/mainstage/long-term-content-plan>). a_child is the correct file. See also the [M1 questionnaire](#)

sorry am still struggling to find this, which data file in wave 1 would a_schsta be in,

a_hhsamp_ip
a_household_ip
a_indall_ip
a_egoalt_ip
a_indresp_ip
a_income_ip
a_marriage_ip
a_cohab_ip
a_natchild_ip
a_adopt_ip
a_childcare_ip
a_youth_ip
a_issue_ip
a_callrec_ip
a_htimings_ip
a_ptimings_ip

Looks like you are missing the a_child file. I would try to download it again from ESDS (I did earlier today and found it).
