Description			
Hello,			
I was wondering if you might be able to help me. I am trying to get a better understanding of the responders to understanding society to gauge whether it is the right data set to use for a prospective project.			
It is possible to know how many respondents to the wave 1 and wave 6 survey are:			
<ul style="list-style-type: none">· Parents· Parents with a child aged 16 or under· Parents who themselves aged 25 or under			
Any help you could offer with this query would be greatly appreciated.			
Best wishes,			
Dan
