Description			
Hi			
When comparing the variable b_ff_oprlg with information merged in directly from Wave 1 using variable a_oprlg - I find small discrepancies and greater missingness on b_ff_oprlg. For example there are 583 cases with an appropriate response on a_oprlg who are recorded missing on b_ff_oprlg. Please could you let me know why that is, or whether it is better to use information from a_oprlg.			
Many thanks			
Andy

Dear Andy,

Apologies for the delay - we would recommend using a_oprlg.

Best wishes, Victoria.

#2 - 07/19/2017 11:50 AM - Andy Ross

No problem - many thanks Victoria

All best

Andy
