Description

In the dataset documentation (I am using wave 'd') reference is made to two fields d_hrpno and d_hrpid on the d_indresp file. I can't find these on the indresp file, or on the indresp file for the a,b or c waves either.
Nor can I find them on any of the other d wave files. Is my data incomplete or are these fields not available? Or have I made another sort of error?
Many thanks

Hi Martin,

I can see these variables in the latest version of the data, in the datafiles w_indresp, w_indall and w_hhresp. Please try downloading the most recent version of the data again, and they should be there.

Best wishes,
Stephanie Auty - Understanding Society User Support Officer
