Description Hi, A few days ago I received an email from Graham Jolliffe about an error of the variable g_frjtpn, 'PNO of joint recipient', on the data file g_income. In addition, this variable is used to calculate other income variables released in g_hhresp, g_indresp and g_income. This interests the users of the Special Licence (SN 6931) data-set as myself. Thus, I need to know if the error also affected the following variables included in the file "g_indresp": g_fimnlabgrs_dv "total monthly labour income gross" g_inc1blabse "amount income component 1b: net self-employ income Thank you very much. Simone

- Status changed from In Progress to Feedback
- Assignee changed from Stephanie Auty to Simone Angioloni
- % Done changed from 10 to 90

Dear Simone,

The error on g_frjtpn will not have affected either of these variables.

Best wishes,
Stephanie Auty - Understanding Society User Support Officer
