Description			
Hi,			
I am using the harmonised Understanding Society/BHPS data, where I have found height and weight information of individuals in wave 14 and 16, but it seems like the answers from wave 18 are missing? I know it exists since it has been used in previous research and there are questions about it in the questionnaire..			
Can you please explain how or where to find this information, or is it simply missing in the harmonised data?			
Many thanks, Lana			

History

#1 - 04/11/2018 03:09 PM - Stephanie Auty

- Category set to Harmonisation
- Status changed from New to In Progress
- Assignee set to Stephanie Auty
- Target version set to BHPS
- % Done changed from 0 to 10
- Private changed from Yes to No

Many thanks for your enquiry. The Understanding Society team is looking into it and we will get back to you as soon as we can.

Best wishes,
Stephanie Auty - Understanding Society User Support Officer

- Status changed from In Progress to Feedback
- Assignee changed from Stephanie Auty to Lana Krehic
- % Done changed from 10 to 80

Dear Lana,

The height and weight questions you can see on the questionnaire for Wave B18 are part of the youth questionnaire. These variables were not collected for adults in that wave.

Best wishes,
Stephanie Auty - Understanding Society User Support Officer
