Category:	Questionnaire content		
Description			
Hello, I don't see self-rated health ("in general would you say your health is excellent, very good, good, fair, or poor") in wave 9 of the innovation panel data. following convention, this would be labeled as "i_scsf1." I do see it for proxy reporters "i_sf1." I've tried searching for "health" in wave 9 and looking at the questionnaire sections on health and health behaviors. Was this question not asked of respondents in wave 9? Thanks, Dana			

History

#1 - 05/10/2018 09:41 AM - Stephanie Auty

- Category set to Questionnaire content
- Status changed from New to In Progress
- Assignee set to Stephanie Auty
- Target version set to IP9
- % Done changed from 0 to 10
- Private changed from Yes to No

Many thanks for your enquiry. The Understanding Society team is looking into it and we will get back to you as soon as we can.

Best wishes,
Stephanie Auty - Understanding Society User Support Officer

#2 - 05/10/2018 12:20 PM - Stephanie Auty

- Status changed from In Progress to Feedback
- Assignee changed from Stephanie Auty to Dana Garbarski
- % Done changed from 10 to 80

Dear Dana,

The self-completion module of the SF-12 was not asked at IP9 (but as you say, SF1 was asked of proxy respondents). A number of modules that are in all other waves were not run in IP9 in order to create space for a lot of new content that wave.

Best wishes,
Stephanie Auty - Understanding Society User Support Officer

Is there a version of self-rated health that is asked in the adult interview portion that I'm not seeing? Or is the question just not I asked in this round? It is such a common survey question I cannot imagine it was skipped completely, but maybe health is not focused on at all in wave 9.

#4 - 05/15/2018 05:04 PM - Stephanie Auty

Dear Dana,

No, it wasn't asked in IP9, along with the rest of the SF-12 module.

Best wishes,

Stephanie Auty - Understanding Society User Support Officer
