Dear Haydn,

The IEMB sample had a slightly different questionnaire in Wave 6, so some questions were asked of just this sample, and others were asked of only those not part of this sample. The missing value codes explain why the data is not available.

Please read the Ethnicity Research User Guide section 6.2 and the IEMB and non-IEMB questionnaire/variables comparison file, available here
https://www.understandingsociety.ac.uk/documentation/mainstage/user-guide, to see the differences.

Best wishes,
